INTRODUCTION

Greater Augusta Prevention Partners (GAPP), www.valleyprevention.com, through a grant made possible by the Office of National Drug Control Policy and the Substance Abuse and Mental Health Services Administration, furthers its mission by providing the community a youth programming resource inventory. The Central Shenandoah Valley Office on Youth serves as the fiscal agent for this grant. GAPP contracted with Knowledge Advisory Group, an evaluation and measurement consulting firm, www.KnowledgeAdvisoryGroup.com, to develop a resource inventory of youth programming within the cities of Staunton and Waynesboro, and Augusta County, Virginia. Data collection efforts encompassed several methodologies including research, professional surveys, and telephone interviews.

This inventory is designed to provide information on services/programs for youth that are free, low-cost, or subsidized. The OYO reserves the right to determine if a program is appropriate to be listed in the inventory.

GAPP and Knowledge Advisory Group would like to thank the program managers and coordinators who contributed to the quality and content of this resource inventory.

The constant change in local resources and services means a comprehensive list of services will never be finished, and as such, this guide was created with the knowledge that it would need to consistently be updated and maintained. We ask you to help us keep this resource up-to-date. If you are aware of changes or a service, support group, or community resource that we do not have listed here or one that has discontinued, please let us know by e-mailing stultzjy@ci.waynesboro.va.us.

*******Publication in this guide does not imply endorsement of any provider. This guide is simply meant as a reference and referral source for persons and/or their families seeking services for youth. This guide is not intended to be used as or replace for medical advice or treatment.*******

Associated with the Juvenile and Domestic Relations District Court is a Court Service Unit (CSU), sometimes called the Juvenile Probation department. The CSU serves the court and facilitates the supervision, rehabilitation and treatment as needed by those who come before the court.

An essential function of the court service unit is *Intake* which involves the filing of petitions for Custody, Visitation, Support, Protective Orders and Emancipation. Intake also involves the processing of complaints of delinquent behavior or truancy and runaway behavior; staff then determine whether matters are handled formally by the Court or informally by the CSU. Intake complaints can be made by a parent or guardian of a juvenile seeking resources for a child demonstrating delinquent behavior.

Other functions include *Court Investigations* and *Probation and Parole Supervision* for individuals up to age 21.

Program Name: **Connections: Autism Behavior Support Program**

Age Groups: Children under the age of 21

Service Location: City of Staunton

Program Manager/Coordinator Name: Gretchen Wilhelm

Fee: Accepts Medicaid

Connections provides home based Applied Behavior Analysis (ABA) services for children and adolescents under the age of 21 who demonstrate significant impairment in adaptive functioning that is related to either developmental delays or other health conditions. Children that would benefit from this program generally present the following behaviors:

- Communication difficulties such as delay in, or total lack of, spoken language; impairment in the ability to initiate or sustain a conversation;
- Social skills deficits such as difficulties in developing age appropriate peer relationships, impairment in the use of non-verbal behaviors such as eye contact and gestures to regulate social interaction;
- Aggressive, disruptive, unsafe behaviors or elopement;
- Significant delays in the activities of daily living including a lack of age appropriate bathing, eating, dressing and toileting skills.

Children with these challenges are often diagnosed with Autism Spectrum Disorders. However, Connections is not a diagnosis-specific program and children with other disorders who exhibit communication and social skills deficits in combination with maladaptive behaviors may qualify for services.
